

Building Product Declaration Staircases

Contact person: Thomas Gustavsson
Quality system: Yes, according to ISO 9001:2000
Environmental policy: Yes
Environmental certification: Yes, according to ISO 14001

Products

Straight flight staircases, balconies, platforms and railings

Product content in weight percent

Steel 95%, Zinc 5%

In the case of any painting, water-based wet paint is used, unless the customer has requested otherwise. The products do not contain any substances on the Chemicals Agency's restrictions list or observation list.

Manufacturing

The products are manufactured in steel and are machined using punching, laser cutting, bending and welding. Surface treatment, hot dip galvanisation or, where applicable, painting. Waste material goes to metal recycling. Operating energy is electricity.

Distribution

Transport is mainly by goods vehicles.

Packaging

Wooden pallets and collars: Reused.
Cartons: Material recycling or energy-recovery

Working life

Insignificant maintenance requirements. Estimated service life is at least 50 years.

Residual products

The material goes to metal recycling.

Work environment

Handling the products does not require special protective equipment.
